### Education

- Bachelor's Degree: Mathematical Support and Administration of Information Systems  
Bashkir State University, 2017-2021
- Master's Degree: Applied Informatics (Software Development)  
Ufa State Petroleum Technological University, 2021-2023

### Courses and Certifications

- Android Application Developer Course in Java  
IT Academy Samsung, 2020

### Work Experience

#### 1. Y-SOFT Information Services LLC, Moscow — Software Developer

December 2022 - March 2024

##### **Full Stack Development with ASP.NET MVC 5:**

- Led the end-to-end development of a CRM system using ASP.NET MVC 5 on .NET Framework 4.5.
- Involved in the complete development life cycle, including requirements analysis, design, implementation, and testing.
- Integrated various modules to optimize business processes.

##### **Android Mobile App Development with Xamarin:**

- Developed a mobile application specifically for the Android platform using Xamarin.
- Ensured compatibility and optimal performance for Android devices.

##### **Microservices Architecture:**

- Designed and developed a microservices architecture for scalability and flexibility.

##### **Database Management and Optimization:**

- Managed the database, optimizing queries to enhance performance.
- Developed and maintained the database schema.

##### **Reports and Data Analysis:**

- Created and configured reports using Microsoft SQL Server Reporting Services (SSRS).
- Ensured the availability and relevance of reports for business users.

##### **Technical Support and Issue Resolution:**

- Actively participated in resolving technical issues and implementing improvements based on user feedback.

##### **Collaboration and Agile Development:**

- Collaborated with other members of the development team, participating in code reviews.
- Actively contributed to project planning and the adoption of cutting-edge technologies.

**2. RN-BashNIPINeft LLC, a subsidiary of PJSC Rosneft, UFA — Software Developer**

August 2022 - December 2022

**Digital Engineering Document Management Platform - SAPSAN: Development and Optimization**

- Contributed to the development of the digital platform for engineering document management known as SAPSAN Plus. Played a key role in designing, implementing, and optimizing the platform, encompassing coding, testing, and integration of features. Ensured the smooth functionality of the SAPSAN Plus digital platform, collaborating effectively with cross-functional teams to enhance the efficiency and user experience of the engineering document workflow.

**3. Kurs LLC, UFA — Software Developer**

June 2021 - August 2022

**Digital Engineering Document Management Platform - GIP Electro: Development and Optimization**

- Developed and implemented an internal service management system for a company specializing in electrical grid maintenance, utilizing ASP.NET MVC technologies.
- Optimized the process of creating and approving service requests, reducing time and enhancing the overall efficiency of the maintenance process.
- Implemented functionality to promptly retrieve information about clients, their energy consumption, and other key parameters, improving overall transparency of client data.
- Participated in requirements gathering, collaborated with stakeholders, and analyzed and improved existing processes and systems.
- Worked closely with a cross-functional team of developers, testers, and end-users to ensure the application met business requirements.
- Actively maintained and updated the developed application in response to evolving business needs.

**Technical Skills**

- Programming Languages: C#, Java, MSSQL, HTML, CSS, JavaScript
- Frameworks & Technologies: ASP.NET MVC, .NET Core, Xamarin, Entity Framework, Microservices Architecture
- Office Software: Microsoft Office Suite, Google Workspace

**Additional Qualities**

- Skills: Problem-solving, team collaboration, adaptability, quick learner, strong communication, innovative thinking
- Personal Traits: Friendly, proactive, results-driven, enjoy working in diverse teams, open to feedback and growth
